## Capabilities Statement

---

International Forest Company, Inc dba IFCO is the largest grower of container seedlings (or sometimes referred to as “tubelings”) in the Southeastern United States. IFCO produces longleaf, loblolly, slash, shortleaf and Virginia pine container seedlings as well as wiregrass.

International Forest Company, Inc dba IFCO, located in Moultrie, GA, delivers to its clients the consistency and quality service they deserve with the highest of integrity and a strong focus on people, products and service. Here at International Forest Company Inc., we are passionate about what we do. That is why we will go to extraordinary lengths to satisfy you. Our vision at International Forest Company Inc. is to create and strengthen relationships with our clients. This is attained by consistently providing exceptional service and demonstrating that we are the right choice for the highest quality container saplings and plants. International Forest Company Inc., is passionate about what we do and pride ourselves on quality work. By acting on those requirements to provide exceptional services every time we consistently deliver to our customers time and time again solutions that fix the problem.

## Core Competencies

---

- Longleaf
- Loblolly
- Slash
- Shortleaf
- Virginia Pine
- Wiregrass

## Differentiators

---

- IFCO has been producing container seedlings since 1983, and we are the largest and oldest container seedling producer in the U.S. South.
- IFCO has production facilities in Georgia, Louisiana and Florida. We serve the 13 Southeastern states of the U.S. IFCO will use its staff of 13 professional foresters and 32 nursery personnel to contract grow seedlings of any tree or native plant species for the southern U.S.
- IFCO grew over 84 million total plants in 2015. We are the largest producer of longleaf and shortleaf pine in the world.
- IFCO is involved in Boys and Girls Clubs and Future Farmers of America groups to encourage young people’s interest in forestry and agriculture. IFCO is also a member of the 13 state forestry associations that support forest landowners and industry to keep strong markets for wood and encourage state and federal political leaders to support forestry.
